

## HDMI Extender Over CAT.5e UTP **120m** HDMI Extender Over CAT.6 UTP **150m**

The **HDMI® Extender** enables you to extend HDMI audio/video signal up to 150 meters over a single CAT6 UTP cable or 120 meters over a single CAT.5e UTP cable.

It can transmit HDMI signal source from HD STB, DVD, PS3, HDMI display card, etc. to HD projector, DLP, LCD, LED monitor and other AV equipment.

The **HDMI® Extender** includes both the local transmitter and remote receiver units which is perfect for point-to-point digital signal applications. To add to the maximum extension distance, the HDMI extender supports HDMI cables up to 10M on both the local and remote ends.

You can connect the transmitter and receiver units directly over Cat5e/Cat6 UTP cabling for a small scale one-to-one extension of up to 120/150 meters. A point-to-point setup can also be achieved when connecting through a Gigabit Ethernet network. It offers a cost effective solution to distribute a HDMI signal throughout your home or work place.

### Features:

- HDCP compliant (not 3D)
- Supports resolutions up to HDMI full HD 1080p
- Plug-and-play operation- no programming or setup required
- Supports point-to-point connection (1:1)
- Extends 1080p HDMI signals up to 120m by directly connecting one Cat5e UTP cable
- Extends 1080p HDMI signals up to 150m by directly connecting one CAT6 UTP cable
- Extends 100M longer by adding one more Switching HUB.
- Power: DC 5V / 1A
- Size: (L x W x H) : 8.5\*8.5\*1.8cm (Approx.)

### Package contents:

- 1 x HDMI Extender Transmitter
- 1 x HDMI Extender Receiver
- 2 x Power Adapter (5V 1A)
- 1 x User Manual

- 1 Extend HDMI sources up to 120m using one run of CAT5e UTP cable
- Extend HDMI sources up to 150m using one run of CAT6 UTP cable

or...

- 2 Use a network hub & receivers to distribute to multiple TV'S
